

# Busan Architecture & Urban Photo Competition 2022

## 1. Theme

### HUMANS & SPACE

사람과 공간

Humans always dwell in space. It is often referred to as city, nature or architecture. Some people find comfort and impression in nature while others find pleasure in urban life.

People inhabit a variety of architecture, communicate with one another, and share emotions. Although the space constructs social relations, people live without perceiving this unseen void.

The pandemic as a catalyst, there is an increasing number of thoughts about the various dwelling spaces.

Communications in cyberspace is expanding via many online platforms including metaverse. Space is not a static entity, and it interacts with humans and evolves through shifting paradigm. *'Humans and Space'* aims to unfold stories of the various spaces we reside.
